

8. A LOVING HUMAN BEING

It is with profound joy and spiritual intensity that my wife Myriam and I are sending to you from the bottom of our hearts our human and spiritual message on the occasion of the 50th of Guruji and Sujana's togetherness.

I have had personally the immense privilege of making two major tours of public conferences in Western India and also to visit with my brother Guruji the Native Land of Guruji and his family.

My brother Guruji has similarity in his daily behavior with the Mahatma Gandhi. I have seen my brother Guruji shaking hands of hundreds of people, talking with hundreds of people, and I have seen with my eyes and perceived with my intuition how much Guruji is a loving human being and also my brother Guruji is « an authentic and humble human being » like the Mahatma, and also like my very dear Mother Teresa, if I may write.

I did visit on a few occasions the home of Guruji and have seen Madame Sujana preparing food, singing with us and praying with us in home - Phenomenal and precious experience for me.

Myriam and I are wishing our brother Guruji and his precious and holy wife Sujana, Peace and Joy and Light for the rest of their life on earth, but also very particularly for their following life with Our God of Love of Compassion, of Wisdom of Peace.

Very dear Guruji, we are waiting in Canada for your next visit, if possible with Sujana.

Between now and our next getting together, daily union of prayer Guruji, as if it was our first prayer together, as if it was our last prayer together, as if it was our only prayer together, between now and Eternity!
